Have you been diagnosed with or tested positive for COVID-19?

- Yes
  - Stay at home for 5 days and then only return to work/school after symptoms have largely resolved and you have had no fever for at least 24 hours without using fever reducing medication. Wear a mask for the next 5 days whenever you are around others.

- No
  - Are you a close contact of someone with COVID-19?
    - No
      - Are you fully vaccinated? (received booster if eligible)
        - Yes
          - SELF-MONITOR for symptoms and wear a mask when in public for 10 days. Get tested 5 days after exposure or immediately if symptoms develop.
        - No
          - PROTECT YOURSELF
            - Get vaccinated if you haven't already done so. Carefully consider which social gatherings are worth the risk and which are not. When indoors wear a high-quality, well-fitting mask except when with family and those in your pods. Whenever possible, avoid crowded, poorly ventilated spaces.

    - Yes
      - QUARANTINE
        - Stay home for 5 days then wear a mask for the next 5 days. Get tested 5 days after exposure or immediately if symptoms develop.
